RECEIVED

Dear Sir:

Applicants hereby submit, in compliance with the revised format for amendments as set forth in *Amendments in a Revised Format Now Permitted*, 1267 Off. Gaz. Pat. Office 106 (February 25, 2003), a corrected drawing in the form of a substitute drawing sheet for Figure 2

More particularly, Applicants submit contemporaneously herewith a corrected drawing sheet for Fig. 2 that reflects the addition thereto of reference numerals 27' and 58. Added reference numerals 27' and 58 are described at page 8, lines 5-7 of the present specification, wherein it is stated that "[w]ell 58
5 for retaining and centering return spring 27' is substantially central to the armature and thus is exposed to primarily axial flux vectors". Further, the lead line for reference numeral 27' was placed on the original Figure 2 drawing sheet, but the actual numeral omitted. Thus, Applicants submit that the proposed corrections embodied in the enclosed corrected drawing sheet for Fig. 2 includes
10 no new matter, but rather simply conform the Figure to the Specification.

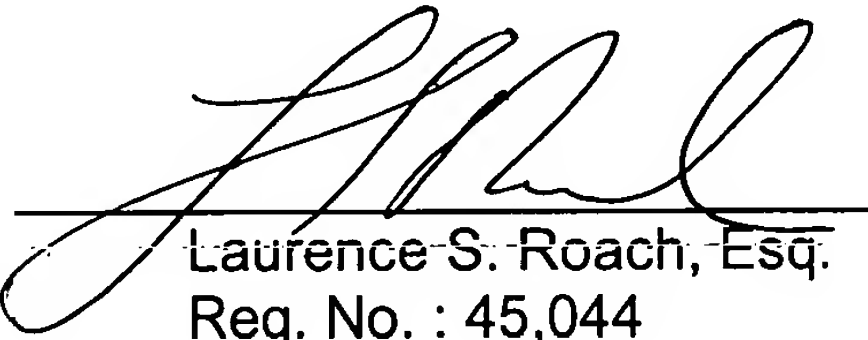

In the event Applicant has overlooked the need for an extension of time, an additional extension of time, payment of fee, or additional payment of fee, Applicant hereby conditionally petitions therefore and authorizes that any charges be made to Deposit Account No. 50-0831, DELPHI TECHNOLOGIES,
15 INC.
